

# Holiday Cheer To You!

**Thanksgiving is around the corner and with the continuing Holiday Season, we wanted to be sure everyone receives Holiday cheer and updates from Little Star Foundation too.**

**Excited for each day to fulfill the mission, program services and for gratitude, joy and light to shine.**

It has been a challenging year, yet Little Star Foundation has risen to the challenges and has again succeeded in providing award winning programs in 2022. New and current patient support requests have increased dramatically in 2022 due to a rise in hospitalizations, relapses and painful lifelong health struggles endured by children suffering from a childhood consumed by cancer diagnoses and treatments.

This Holiday Season and the coming New Year, Little Star Foundation Programs will continue providing financial relief, daily and emergency care; therapeutic and educational opportunities to help achieve breakthroughs and advancements. Your support is welcome, needed and appreciated and makes an important and immediate difference. Little Star Foundation continues to utilize experiences over decades and specialized relationships with caregivers in health, medicine, educational, therapeutic, and additional sectors of a society dedicated to improving the lives of children and humanity in general.

I am excited to share with you Little Star Foundation's 2023 Wall Calendar. Once again for free, Little Star provides, throughout the U.S. and worldwide, our original, inspiring, educational, and colorful Wall Calendar to hospitals, schools, orphanages, shelters and homes, every year for free. You and anyone can view it on our website and at the link: <http://agendabook.littlestar.org/bookcase/cdox>

If you want a printed copy and have yet to receive your own, let me know and I will be sure to send you one for free.

Thank you for all you do in making the world a better and brighter place. I and everyone at Little Star Foundation are honored to continue the life improving and even lifesaving Programs you help make possible. Enjoy, share and Happy Holidays and blessings to you, your family, loved ones and all you care for, from all of us at Little Star Foundation,

Andrea Jaeger
